*Helping work flow*

## Our Green Policy

At Nustream, we have high awareness of the world that we live in and take steps to limited our impact.

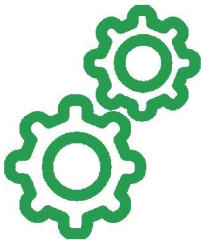

Nustream is in partnership with PrintReleaf to lessen our enviromental impact.

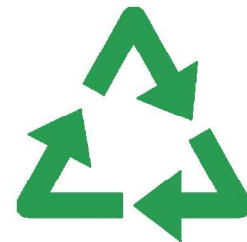

PrintReleaf integrates with print management software to measure our paper consumption.

PrintReleaf Exchange reverse-calculates how many trees were deforested to harvest our forest footprint.

Then forest footprint is automatically reforested at global reforestation projects of our choice.

Nustream also recycle all materials appropriately within our office.

All Nustream staff have a section on enviromental awareness within the new starter induction.

Nustream have also introduced policies on travel to use technology to remove unnecessary travel.
