Xerox® VersaLink® B625 Multifunction Printer and Xerox® VersaLink® B620 Printer

Is personalisation, future readiness and built-in security too much to ask for? Small enough to fit where you need them and fast enough to support high print volumes, these smart Workplace Assistants are made for high-performing work teams. The Xerox® VersaLink® B625 Multifunction Printer offers multifunctional agility with print, copy, scan and fax, while the Xerox® VersaLink® B620 Printer delivers flawlessly for print-centric needs.

COMPACT WITHOUT COMPROMISE

Make the most of every square metre of your office space with the small footprint of the VersaLink B625 Multifunction Printer and B620 Printer. Outrageously capable, these workhorses take up less space but get just as much work done. They're perfectly sized for scaled-back office spaces and hybrid work environments, where space is a premium and there's no room for disruption.

AUTOMATED PRODUCTIVITY

Get up to speed in no time with a tablet-like touchscreen that balances simplicity and time-saving efficiency. Tap into AI-assisted algorithms that learn from you and prioritise your most commonly used tasks to create convenient shortcuts, so you can do more in fewer steps. And the ability to personalise the UI provides the freedom to work the way you want, allowing you to breeze through functions.

Mobility features, such as AirPrint®, Mopria® and optional Wi-Fi® Direct, take the hassle out of printing directly from your favourite mobile devices. With VersaLink printers, more capabilities means added convenience, not more complexity. Leading-edge scanning functionality and the automation of complex physical and digital workflows allow you to scan¹, digitise and route information without missing a beat, reducing errors and saving time.

DISRUPTION-READY TECHNOLOGY

Your work is always evolving, so you need technology that's always a step ahead. The Xerox® ConnectKey® Technology-enabled VersaLink device adjusts quickly to the evolving needs of your organisation.

Translator. Proofreader. Do-it-all digitiser. Now you can tackle whatever work throws at you. Stay ready with the Xerox App Gallery, an ever-growing portfolio of cloud-hosted apps and productivity tools.

And the VersaLink B625 allows access to the optional Xerox® Workflow Central Platform, a cloud-based solution that takes the guesswork out of converting physical and digital files into usable formats right from the VersaLink user interface – even complicated work processes are simple. For example, summarise a lengthy report, translate it and share it with your team in just a few quick steps.

SMARTER, MORE SOPHISTICATED SECURITY

Comprehensive security features work hard to prevent, detect and neutralise threats, in addition to streamlining reporting and automatically remediating IT-required settings. Built-in, predefined security configurations simplify implementation. Just select one of three security templates and let VersaLink do the rest – no expert knowledge required.

QUALITY THAT'S A CUT ABOVE

Delivering a high-resolution output of 1200 x 1200 dpi, with crisp text and sharp lines to elevate your important documents.

SUSTAINABLE THROUGH AND THROUGH

Made up of more than 25% post-consumer recycled plastic, VersaLink printers give new meaning to being environmentally responsible. These devices meet the strictest globally recognised standards for product environmental performance, including EPEAT, Blue Angel and ENERGY STAR®. The Xerox® Supplies Recycling Programme simplifies the collection, reuse and recycling of spent imaging supplies.²

XEROX CONNECTKEY TECHNOLOGY

Intuitive User Experience

Enjoy a tablet-like experience with gesture-based touchscreen controls and easy personalisation, plus AI-assisted workflow automation.

Mobile and Cloud Ready

Be more mobile with cloud-hosted services and instant connectivity to the cloud and mobile devices – right from the user interface.

Comprehensive Security

Prevent unauthorised access, detect threats and protect data and documents with built-in proactive security features.

Enables Managed Print Services

Seamless integration with Xerox® Managed Print Services delivers next-level workplace efficiency, employee productivity and security while helping you meet sustainability goals.

Gateway to New Possibilities

Transform the way you work with the apps in the Xerox App Gallery. Or choose the Xerox® Workflow Central Platform to utilise apps from any device: laptop, desktop or your Xerox® ConnectKey® Technology-enabled printer.
